SUMMARY OF THE REASONS FOR DECISION:

The publication *Teen Cum Party - Free Preview Page 2 Of 3* is classified as:
Objectionable.

The publication is a black and white computer printout on a sheet of A4 paper, and has been downloaded from a sexually explicit website. The printout is made up of sexually explicit photographs and sexually explicit captions and lists of the website's sexual activities depicted on the website.

The publication tends to promote and support the use of urine in association with sexual conduct. The computer printout lists references to urination alongside explicit photographs of a variety of sexual activities as part of the sexually explicit content of the advertised website.

The provisions of the New Zealand Bill of Rights Act 1990 (NZBR Act) have been taken into account in determining this classification. The computer printout falls under s3(2) of the Films, Videos, and Publications Classification Act 1993. It is therefore deemed to be objectionable. A classification of "objectionable" places a limit on the freedom of expression set out in s14 of the NZBR Act. However, in relation to this publication, the classification is considered to be a reasonable limit prescribed by law that can be demonstrably justified in a free and democratic society.
